

13) Consent for Photography, Filming and/or Recording

Introduction

Thank you for attending and/or participating in the Essex Birdwatching Society (the Society) events. We sometimes take photographs and/or video filming and/or live streaming to promote the Society and its conservation work. The Society would like to check that you are happy with this and seek your permission to use any photographs and/or recordings that you and/or members of your family feature in.

The Society may wish to photograph and/or film and/or live stream crowds at an event where an individual and/or group of individuals is/are not the particular focus. As it is impractical to obtain consent for everyone the Society will place a 'placard' on clear display to inform everybody of the photography and/or filming and provide details as to how they can be removed from the photograph and/or footage. The placard is available on request.

The Society takes privacy and data protection very seriously, especially in the case of families and children. We do not use any photographs and/or recordings of you and/or your family without your express permission and agreement, and we will never identify you by name without your specific consent.

If you are happy for the Society to use photographs and/or recordings of yourself and/or your family, please fill in the form below. You can of course withdraw your consent at any time in future by writing to the Secretary or by e-mail to Info.EBwS@gmail.com. The date of your withdraw of consent will be recorded.

The Society will keep all Consent Forms on record (as a hard copy or electronically) in order to demonstrate the Society has complied with data protection law.

Permission

By signing below you agree the Society may take photographs and/or make live visual and/or sound recordings of yourself (and, as the parent/legal guardian of children named below), your children to promote the Society and its work.

How we may use the photographs and/or recordings

Photographs and recordings may be used by the Society in communications and promotional marketing materials (e.g. magazines, newsletters, videos, online, at events, etc.) at any time now or in the future.

The Society may share photographs and recordings with other organisations we work with to produce Society publications or literature or on particular projects or events. How and why these can be use will be strictly restricted to non-commercial purposes.

For more information about how the Society protects personal data, and to understand your rights, please see our Information Sheet 16 covering 'General Data Protection Regulation'. This document is displayed on the Society website WWW.EBwS.ORG.UK or can be supplied by writing to the Secretary or by e-mailing Info.EBwS@gmail.com.
